Patient: Susan Park DOB: 02/14/1975 MRN: 317745
Date: 04/02/2026
Provider: Anita Reyes, MD NPI: 1558207461

CHIEF COMPLAINT: Hypertension follow-up.

HISTORY: 51-year-old female returns for routine blood pressure check. Hypertension diagnosed 2023, controlled on lisinopril 10 mg daily. Home readings average 128/78. Denies headaches, chest pain, edema, or medication side effects. Adherent to low-sodium diet. No new complaints. ROS otherwise negative.

EXAM: BP 132/82, HR 72, BMI 26.1. Heart regular rate and rhythm, no murmurs. Lungs clear. No peripheral edema.

ASSESSMENT: Essential hypertension (I10), stable and well-controlled on current regimen.

PLAN: Continue lisinopril 10 mg daily. Continue home BP monitoring. Routine labs ordered (BMP, lipids) for annual monitoring. Return in 6 months, sooner if readings exceed 140/90.
